

Get involved

MPS Awareness Week 13–19 May 2019

Awareness information stand

Hold an information stand on any day of Awareness Week in your local community, school or work place.

Wear it Blue

On 15 May Wear it Blue in school, your work place or local community. Simply wear a blue t-shirt or why not paint your face? What you do is totally up to you! Combine it with a blue bake sale to raise even more funds!

Local bucket collections

We need volunteers to raise funds in your local area. This could be bucket collecting outside a local shopping centre or supermarket. We can help you with permissions.

Shout about it!

Share our social media posts with your network. Register today for your social media toolkit with advice on how to do this and look out for our posts @mpssociety and @mpssocietyuk

We want everyone to know about the signs and symptoms of MPS and related diseases. Early diagnosis could mean better treatment or may even save a life. Help us make a difference this Awareness Week and register for your free pack here: www.mpsociety.org.uk/mps-awareness-week
